portfolio-gray-two-nqu3rrdy2z.vercel.app

Versatile Junior Web Developer combining strong technical training (Bachelor's in Web Development) with a strategic vision (AEC in Digital Marketing). With concrete corporate experience optimizing internal tools and creating collaborative intranets, I am proficient in both back-end environments (PHP, Laravel, SQL) and modern front-end technologies (React, Next.js). Highly adaptable and bilingual, I hold a Post-Graduation Work Permit (PGWP), am motivated, and ready for employment."

PROFESSIONAL EXPERIENCE

STEF EUROPE, LYON, FRANCE

Full Stack Developer (Internship) | Lyon, France | January 2024 – June 2024

- Optimized and maintained "GEHDI", a strategic internal tool managing European logistics (PHP, SQL, JavaScript).
- Developed dynamic filtering features allowing operators to precisely target delivery offers (TIME, OPEN, SUPPLY).
- Secured the file processing workflow by implementing validation controls (client and server-side) to make attachments mandatory.
- Created interactive interfaces to guide users when modifying scheduled commitments.
- Managed and administered the daily database (updates, state corrections, maintaining referential integrity).

ITES COM GROUP, CASABLANCA, MOROCCO

Web Developer & Integrator (Internship) | Casablanca, Morocco | May 2023 – September 2023

- Designed and developed a collaborative intranet (HTML5, CSS3, PHP, JS, MySQL) to centralize task, objective, and order management.
- Implemented a secure authentication system with password encryption and created an administration panel.
- Completely redesigned the company's website, including UI/UX improvements and the integration of a functional contact form using MailTrap.

RED MED CAPITAL, CASABLANCA, MOROCCO

Back-End Developer (Laravel)

- Took over, maintained, and optimized an existing corporate intranet developed with the Laravel framework.
- Integrated and adapted administration interfaces using the Metronic 7 template to modernize the user experience.
